How to install an internal wireless card for the iOne-GX31 LCD PC

Below is a step-by-step guide detailing the process of installing a MiniPCI Express Wireless Card for the iOne-GX31.

1. Figure 1 shows the wireless MiniPCIE card installed correctly. Please note the attachment of the antenna cables; when attaching be sure the antenna are firmly seated to the main & aux connectors by swiveling the connection.
2. Figure 2 shows the correct assembly of the Wireless LAN antenna cables. Ensure the end of the antenna is not touching the metal chassis by folding it in towards the front bezel.
3. Figure 3 shows the correct layout of the wireless antenna along the system chassis.
