XB ELE POC
The battery is in the monitor!

"The nurses absolutely rave about the extended battery run time" – IT Director, HCA

"The XB Monitor offers full workstation capability... The nurses love them" – Andrew S., HCA

"I cannot think of even one negative characteristic of this new WOW solution incorporating the Cybernet XB monitors" – IT Director, HCA

"The nurses love that the battery solution is lightweight" – Jesse N., HCA

"The built-in privacy filters are a great addition for our nurses" – Blythedale Children's Hospital

XB Battery Powered Monitor Specs

Runtime	16 hours
Screen Size	19", 20", 22", 24"
Resolution	1920 x 1080
Weight	17 lbs.

XB Power Output

Dual DC Out	Variable Voltage 5V-48V
	Up to 48 Watts
Battery	Up to 3 (6000mAh each)
Charging Time	3-4 hours

Cart Dimensions

Height	Adjustable from 46" to 62"
Width	22.2"
Depth	20.3"
Weight	55 lbs.

Cart Worksurface / Techbay

Width	21.3"
Depth	14.4"
Techbay Dimensions	19.5" x 14" x 20"
Material	Aircraft Aluminum

Parts shown: XB22XNT-HCA8022, XB2XDDC-HCA8022, ELE-PC1, ELE-SVLMNT, EVA-WSH1

THE LATEST IN MOBILE WORKSTATION POWER

A Display That Powers Your Cart

No, it's not an AIO. It is the world's first medical grade, hot-swap battery powered display designed to be used as a primary power source.

This allows you to utilize your standard mini-PC or thin client in a small, lightweight, infection control cart configuration with run times of up to 16 hours.

A fanless, antimicrobial enclosure designed for medical applications with enough power and outputs to run your DC devices and other peripherals.
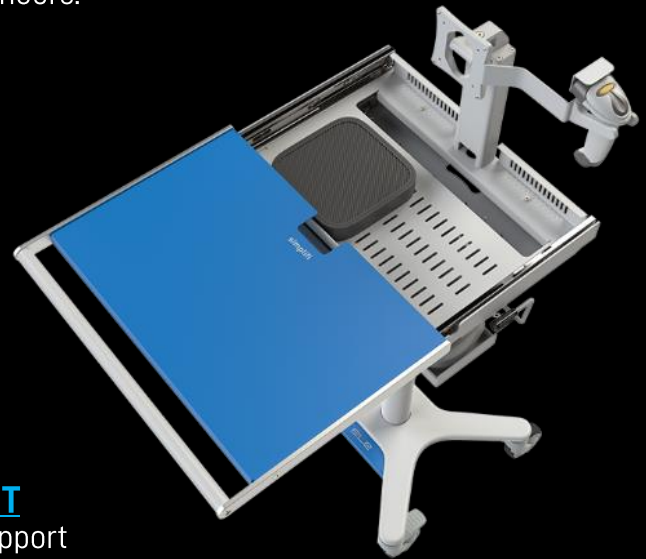

Utilize the optional front camera to achieve a low-cost telehealth solution in applications where an expensive PTZ camera isn't necessary.

Designed for Nurses
Lightweight - Only 55 lbs.
Tilt/Swivel Mount
Full Size KB/Mouse Utilization
Height Adjustable
Application Specific Accessories
Easy to Clean
Antimicrobial Powder Coat Finish

Built for IT
Easy To Support
Easy Access to Technology
Large, Secured Technology Bay
100% Metal Construction - Aircraft Aluminum
Engineered Within the Highest Tolerances
Precision Ball Bearing Slides
Healthcare Grade Dual Casters

FEATURES
Dual DC Outputs
5V, 9V, 12V, 15V, 19V, 24V & 48V - Up to 48Watts
Integrated Hot-Swappable Batteries (up to 3 batteries)
Onboard and/or Offboard Charging via Multicharger

Medical Grade, IP65 Front / IP54 Rear, Fanless
UL / cUL / IEC60601-1 Certified
100% Antimicrobial Finish (including the glass)

Built-in Wi-Fi Antennas, 2x Speakers
Full-HD (1920 x 1080) Resolution, High Contrast

Optional
RFID Reader, Barcode Scanner, Front Camera, Light, 4K Panel, Embedded Privacy Filter
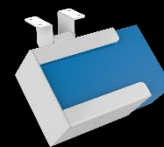

ACCESSORIES

Saniwipe Holders	Baskets	Drawers

Scanner Brackets	Glove Holder	Sharp Container
