Applications

Financial

Limited space at your teller stations & drive through windows can benefit from the All-in-One design while reducing energy consumption.

Education

Schools, Libraries, Student Cafes & Training Rooms will benefit from our Space & Power Saving All-in-One technology.

Healthcare

Great choice for hospital nursing stations, patient admitting, ER and labs where space is limited.

Industrial Applications

Shipping environments, factory floors or any other harsh environment will not effect the reliability and durability of the I-One™.

Point Of Sale

The limited work areas in box offices, restaurants, bars, grocery & convenience stores can benefit from the extra space and touch screen capability of the I-One™.

Hospitality

Reservation counters at airports, hotels & concierge desks will enjoy having the extra desktop space when using the I-One™.

General Applications

The I-One™ may be used in any application where putting a PC on your desk or floor is not an option and space is limited.

All-In-One LCD PC-TV

Key Features

Wall Mountable

Easy to remove stand for VESA compliant mounting to a wall or an arm.

Built in TV Tuner

(Optional)
Watch your favorite TV channel and do your work at the same time.

Touch Screen (Model M661ST)

The touch model is ideal for Point of Sale & Healthcare facilities using either the wall mount option or with the base attached.

Wireless Networking

(Optional)
Integrated 802.11g Mini PCI card allows for cable free connectivity for those hard to wire places.

Total Desktop Freedom

The All-in-One I-One™ from Cybernet is designed to create a virtually wire free desktop environment. It gets rid of all the cables, saves valuable desktop space and even functions as a TV so you can be most productive and stay on top of the important market news at the same time. The wireless keyboard & mouse feature allows you to move the keyboard anywhere on your desk or even put it in your lap. How much more freedom can you ask for?
